54" Wood Handle with 8" Steel ferrule and Clevis

Rope Broom Trolley

The Power of **RED**

From Cleform in 2005

The two man Cleform Rope Broom System requires no handle and allows you to use any of the Cleform Concrete brooms in lengths from three feet to six feet. The rope kit consists of all the attachments and hardware and two 50 foot lengths of rope. The kit attaches to our standard concrete brooms. This allows greater size versatility and numerous bristle choices at a much lower cost.

Brooms Sold Separately

- The system allows you to quickly broom finish fresh concrete without the use of handles.
- It's a real time saver on those large pours or in confined areas where handles can not be used.

All of our brooms will also allow you to use handles on them if you so desire. It can also be used on our tine broom to tine finish fresh concrete.

Brooms Available up to 6 feet in length

Straight Edges

Aluminum
or Steel

The Power of **RED**

Aluminum or Steel
Straight Edge 1" x 2"

The Cleform
Straight Edge is a light, accurate
checking tool which means
"inspection insurance" for your
slabs. The blade has a flat
bottom which makes checking
easy.

Aluminum available in 10, 12 and 16 ft lengths.
Steel available in 10 and 12 ft lengths.

Rebar Cutter Benders Stake Pullers

The Power of **RED**

REBAR CUTTER BENDER # 704559

Top Loading Design

Cutting Capacity: # 5 Rebar
Cuts up to 5/8"

Bending Capacity: # 6 Rebar
Bends up to 3/4"

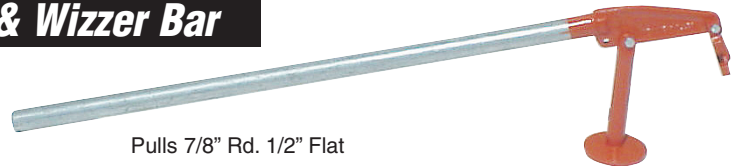

Replacement Jaws # 704560

Stake Puller Hickey Bender & Wizzer Bar

704640 Stake Puller

Self adjusts to enable pulling without bending stakes.
Use on round or flat stakes. Base plates stabilize and help prevent tool from sinking into the ground.

Pulls 7/8" Rd. 1/2" Flat

Hickey Bender

704639 Hickey Bender

Portable, simple to use, sturdy tool for bending rebar. Bends 5/8" Grade 60

Stake Saver Removal Tool

Patent Pending

Cleform's new Patent pending Stake Saver removal tool is truly the most innovative concept in stake removal yet. The Stake Saver gripping attachment quickly attaches to the Cleform RedBull Pry Bar, Part # 706630 or similar 3" wide bars by others. It can be used in conjunction with nail pulling and panel stripping. Available in 3/4" or 7/8" stake size.

Stake Saver Removal Tool

704092 3/4" Stake Attachment

704093 7/8" Stake Attachment

Other Sizes Available Upon Request

BENEFITS

- ⊙ This patent design allows for below form, flush to the form stake removal even in tight restricted areas.
- ⊙ Eliminates bent stakes, ratchet action removes stakes vertically.
- ⊙ Reduces back and shoulder strain over conventional stake removal methods.
- ⊙ Cuts stake removal time to a fraction of conventional methods.
- ⊙ Reduces or eliminates non-removal of deeply set stakes, no more pounding stakes below ground or loss of stake.
- ⊙ Lightweight design and compact sizes allows tool to be carried in tool pouch or work apron.

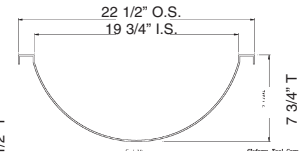

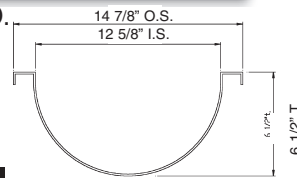

PryBar Sold Separately - See Page 85

Chutes & Mortar Boxes

The Power of **RED**

CHUTES AND MORTAR BOXES ARE FOB ST. JOSEPH MO. Freight will not be paid on Chutes or Steel Mortar Boxes unless the total value of the order excluding those items is \$1200 or more, shipped to single destination within the 48 United States boundaries.

Chutes

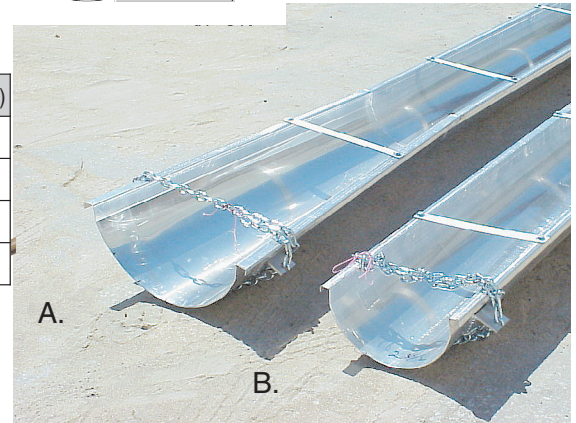

The Cleform smooth flow aluminum chute is durable and lightweight. The chute is constructed of heavy gauge aluminum and is reinforced with cross braces and flanged edges.

Sled Runners, Jointers, Trowels

"V" Sled Runners

Handy in block construction –
Makes perfect horizontal "V" joints.
1 lb.

700530 16" x 3/4"

Half Round Convex Sled Runners

Best tool for making half round
sunken or rodded masonry joints.
Sled runners are turned up on one end
only.

700532 1/2" x 16"

700533 5/8" x 18"

Hubbard Sled Runner

The Hubbard Sled Runner operates on the same principle as the
jointer. Turning the blade during use helps distribute wear.
Cast aluminum blade with handle. The replaceable blade is made of 3/4" diameter
case hardened steel.

The ideal tool for making half-round sunken joints.

704882 14" Sled Runner # 704883 14" x 3/4" Repl. Blade

704884 16" Sled Runner # 704885 16" x 3/4" Repl. Blade

Hubbard Jointer

The Hubbard Jointer has more knuckle clearance and is longer lasting.
The overall length is 8 1/2".

Comes with (1) 3/4" (1) 5/8" and (1) 7/8" Blade,
Replace the blades, keep the handle.

704877 Jointer with 3 Blades -
5/8" 3/4" 7/8"

Replacement Blades

704878 1/2" # 704880 3/4"

704879 5/8" # 704881 7/8"

"S" Jointer

The "S" curve allows the user to approach or maintain
different pitch angles while jointing the mortar. Improves
seam appearance, allows the user to roll during use to

Part #	Size
704205	3/8" x 1/2"
704206	1/2" x 5/8"
704207	5/8" x 3/4"
704208	3/4" x 7/8"
704209	7/8" x 1"

keep a continuous clean
edge contact. Reduces wrist
and arm fatigue and is
great for fast drying
mortar.

Convex Jointer

Made for half-round rodded or sunken joints. Each end
makes a different sized joint, so you actually have two

tools in one. Made of
heavy gauge steel for
durability, yet are light and
easy to handle.

Part #	Size
700380	3/8" x 1/2"
700381	1/2" x 5/8"
700382	5/8" x 3/4"
700383	3/4" x 7/8"
700384	7/8" x 1"

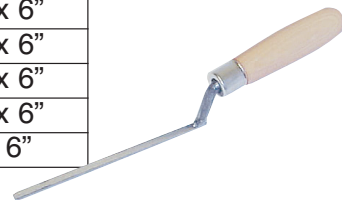

Tuck Pointing Trowel

Also known as a chalking trowel. Made of polished

Part #	Size
700385	3/16" x 6"
700386	1/4" x 6"
700387	3/8" x 6"
700388	1/2" x 6"
700389	5/8" x 6"
700390	3/4" x 6"
700391	7/8" x 6"
700392	1" x 6"

carbon steel. Fitted with a
steel ferruled wood handle.
The high lift on the trowel
handles give plenty of
knuckle clearance.

Bucket Trowel

End of the blade is
cut diagonally for
use in buckets or
mortar boxes.

Stake Slammer

The Power of **RED**

Expert's Choice Most Innovative New Product 2004 World of Concrete!

Stake Slammer

Round or Square -

Drives Both 3/4" & 1" Stakes

Safely drive nail stakes without mushrooming ends.
Protects workers hands and helps eliminate costly accidents when two men are setting stakes.

700233 Round

700234 Square

Cleform's New Pour Pot Crack Filler

Part # 704948

Ideal for all applications!

2 Gallon Capacity

No-Drip valve and cone-shaped design

Legs included

Foundation Pourer - Bond Beam Pourer

BOND BEAM POURER - Black #704221
(Patent Pending)

- No more splattering grout on the wall below the pour.
- Pour faster, less truck stand-by time.
- Target area increases three times in width/large enough to get extra out to muck up grade.
- Use two "BOND BEAM POURERS: and bypass stub steel.

FOUNDATION POURER - Gray #704220
(Patent Pending)

- Never use a splashboard again.
- Never spill concrete outside the form.
- One man pours the entire job alone/quicker and faster.
- Totally frees you to go back and muck up to grade.
- Sets flat, will not float when full.
- Self-centers on forms 6" - 12" wide.
- Target area is twice the width of the wall.
- Both hands free to shovel under chute.

FEATURES OF BOTH UNITS

- Increase profits
- Time saving
- Labor saving
- Made of high-density polyethylene
- Concrete will not stick to surface
- Easy to handle, large lip perimeter
- Virtually indestructible
- Not affected by heat or cold
- Each unit weighs less than 40 oz.

Cutting Saw

The Power of **RED**

“...Need more profit from the job?”

- Decorative concrete sawing or engraving
- Early entry saw for control joints in concrete slabs
- Group joint patterns in synthetic or stamped stone
- Slab granite, marble countertops and floors
- Wall or floor access chaser cuts for retro plumbing or electrical
- Cut stucco, tile, brick, asphalt, plywood and much more
- Roofing removal, rip long straight cuts

Cleform's patented

“Saw Buster”

Turns your worm gear circular saw into a portable concrete cutting or engraving workhorse!

- Makes Your Job More Profitable
- Dual Use Handle - Standing Upright or Hand Held Position
- Cutting Depth Adjustment, up to 2 inches
- Handle Angle Easily Changed to Operator Height
- Precision Front Guide Flips Up to Allow Close Wall Cuts
- Quick, Easy Assembly Will Have You Sawing in Minutes

• **SAW BUSTER** Patents # US6349712-B1 Other Patents Pending •

Shovels & Long Handled Striking Tools Wheelbarrow Mixer

The Power of **RED**

Cleform Tool Corporation offers a complete line of Long Handled and Striking Tools, in addition to our cement, masonry, tile and drywall tools. Our Long Handled and Striking Tools include a complete selection of: Shovels, Spades, Scrapers, Scoops, Trenching tools, Rakes and Hoes, Forks, Picks/Mattocks, Post Hole Diggers, Pry Bars, Wizzer Bars, Tile Probes, Hammers, Brooms, Tamperers, Mortar Boxes and a Portable Wheelbarrow Mixer.

3 Series of Shovels – **BADGER/ WOLVERINE/ RANGER**

The **Badger** Series

“Best” Quality – Professional & Industrial Grade

14 Gauge Blade – Forward Turned Step / Fully Driven Double Riveted Ash Handle

Includes Wood, Fiberglass and Steel Handled Shovels – Spades/ Roof Tear-Off Spades/Sharp Shooters

The **Wolverine** Series

“Better” Quality Or Deluxe Grade

14 Gauge Blade – Forward Turned Step / Fully Driven Single Riveted Ash Handle

Includes Wood, Fiberglass and Steel Handled Shovels – Spades/Roof Tear-Off Spades/Sharp Shooters

The **Ranger** Series

“Good” Quality Or Promotional Grade

14 Gauge Blade – Forward Turned Step / Fully Driven Single Riveted Oak Handle

Includes Wood Handled Shovels/ Spade/ Scraper/ Trunk Buddies

Improvement on “D” Handle for Badger and Wolverine Series Shovels

Cleform installs a solid stem “D” handle grip on Badger and Wolverine shovel series. The solid stem will give added strength to this section of the wood handle. Most break failures happen at the base of the “D” grip stem. The old style formed into two sections, requiring the wood to be split so the grip can be installed. This weakens the wood in this area, which can cause the handle to break.

[Cleform Freight Policy:](#)

Freight Prepaid on \$1200 ORDERS ONLY on long handled and striking tools.
